

NPA Simulcast Bid Screen

The screenshot shows a web interface for bidding on a motorcycle. The interface includes a dropdown menu for auction lanes, a video player for the current item, a list of auction items, a messaging section, and a detailed view of the current item with a bidding overview and condition report.

1. **Auction Lane Dropdown** - Ability to select a specific auction lane.
2. **Image/Audio Box** - Displays image and item number. Also offers an audio check box to turn sound on and off.
3. **Auction Lane Items** - Lists the upcoming auction items for selected auction lane.
4. **Message Block** - Send a message to the auctioneer.
5. **Auction Item Bid/Message History** - Current auction item bid history and any messages associated with current auction item.
6. **My Watch List** - Displays any auction items you have added to your watch list.
7. **Bidding Overview** - Overview of the current item's high bid, current bidder, and status of item.
8. **Bid Button** - Shows the asking bid along with the bid button.
9. **Special Announcement** - Green bar displays when new information needs to be shared.
10. **Auction Item Overview** - Displays the current auction item's condition report, auction notes, and vehicle images button.
11. **Condition Report** - Lists the necessary information about the current auction item including item #, year, make model, item location, miles, condition report, and type of title.
