

NPA Value Guide™

Dealers are given immediate access to current real time market prices via the NPA Value Guide™. Dealers have the option to search by location, condition, month range, and now by the Vehicle Identification Number. With over 25 years of accumulated proprietary data, this innovative tool assists you in accurately projecting returns on your powersport inventory. With the NPA Value Guide™ you will never turn away another trade due to inaccurate projections.

Time Duration:

Dealers have the opportunity to search for sales results between 1 and 12 months of a vehicles sale date. The time duration will automatically default to 3 months and all locations. You are now able to change the year of the vehicle without navigating away from this page.

Sale Location:

Dealers can search by a specific NPA location or group all NPA locations together.

Vehicle Summary:

The summary displays the accumulated average of a vehicle's sale results over a specified time frame. The summary shows the number of units, average score, average mileage and value. The current NADA wholesale value will be also be provided.

Condition Breakdown:

This displays the total number of vehicles sold, categorized by the condition report score range.

Mileage Breakdown:

This displays the mileage range in conjunction with the average Condition Report Score.

Time Breakdown:

The time breakdown lists the total number of vehicles sold by month. This can be beneficial when forecasting a vehicles value across seasons.
